BENEFITS OF BREASTFEEDING

WEBINAR

The decision to breastfeed your baby is a personal one and one that only you can make. This webinar will be delivered by a board certified lactation consultant and will provide you with the basic information and facts to help you make an educated decision on breastfeeding. We will discuss the benefits for both the mother and the baby, facts and myths about breastfeeding, and offer helpful resources for further information. We will also address issues and concerns with traveling internationally.

Please join us for a FREE webinar available to all of the USAID workforce...
